

Increment at the Face Shield ErgoS

Among the brand name BSD ErgoS you can find for nearly every requirement profile a suitable Face Shield solution against the thermal hazards of an electric arc. Especially if you bring in the additional product range of protective hoods.

The available protection level goes from **Class 1** up to **Class 2** according DGUV GS-ET-29, of **7.0 cal/cm²** up to **26.0 cal/cm²** according ASTM F2178 (ATPV-Value)

The bracket options at hard hats are basically **Universal-Bracket** or **Slot-Bracket**

From May on there are four new model varieties of Face Shield visors, which are compatible with their Slot-Bracket to specific hard hats.

New Varieties:

Hard Hat Petzl Vertex ST Best The Face Shield will be delivered with an adapter for the brim-less Petzl-Hard Hat

ErgoS 2plus: 7406325

ErgoS 2: 7406326

Hard Hat MSA (V-Gard)

ErgoS 2plus: 7406331

ErgoS 2: 7406330

MSA and North Safety have identical Slot-Brackets.

Hard Hat North Safety

ErgoS 2plus: 7406331

ErgoS 2: 7406330
